Continuation Sheet (PTOL-303)

Continuation of 2. NOTE: A new ground of rejection would be necessitated by entry of Applicants' amendment filed November 19, 2004. In particular, the amendment would necessitate the rejection of a new grouping of claims, i.e., claims 14-20 and 31, for the reasons of record as applied to claims 1-3 and 13-30 under 35 U.S.C. 102/103. While the proposed amendment to claim 2 overcomes the rejection of record, this claim depends from newly presented claim 31 which would remain properly rejected. Claim 31 is not limited to those diseases recited in claim 2 and thus encompasses the disease states which are clearly taught and/or suggested by Flynn et al. (U.S. Patent No. 5,430,145). Proposed claim 2 in independent form would be allowable.
